

Play Dough Number Mats

Play dough number mats are perfect for encouraging the development of fine motor skills.

It also increases number awareness by having the child practice number formation in a hands on way.

Directions:

- Print out the Number Mats that you would like to use. (all of them or just the ones you feel your child needs to work on.)
- Laminate them! This will ensure durability and can be used again
- Child can use play dough to form the numbers and make circles to create the number dots for number correspondence
Pom poms and other little counters can be substituted for less monotony.
